

**Esenov Amanberdi** – a student of the Faculty of foreign languages shares his opinion about studying in Belarus and why he chose Mogilev State A.Kuleshov University.

My name is Esenov Amanberdi, I was born 01.25.1989. My homeland is the country of Turkmenistan, Mary region. I studied at school number 13, which is located in Bairamaly. I liked studying English and Russian most of all. In 2005 I finished school. After that I entered the Agro-Business College, which is located in Bairamaly. In 2007 I graduated from it successfully. Then I served in the army. I had a desire to learn foreign languages and see other countries. Belarus attracted me for its hospitality and tolerance. In 2012 I arrived in Belarus to study at Mogilev State A. Kuleshov University.

I think that everyone should be educated and diversified. I chose the faculty of foreign languages because I like traveling to different countries, and with the knowledge of many languages I facilitate communication with local residents.

I really like to study in Belarus. Belarusians are sympathetic, hospitable, friendly people, they are always ready to help those who need it. I especially want to highlight the teachers of our university. I have with each of them warm relations. As a foreigner I am

not always excellent in studying, and I appreciate the teachers as they show an individual approach to the international students like me. I try to participate in various cultural events that are held in a dormitory and the university. After all, youth is given to us once in a lifetime, and it is the most wonderful time. Like a flower blooms in the spring, people

"bloom" in their youth. There are university chess competition among the faculties in which I take the first place! My friends, fans, teachers, support me and it is very nice.

Student life is very rich: lots of experiences, discoveries and victories - all this makes my life interesting and varied. Mogilev State A.Kuleshov University provides all the opportunities for successful student learning, training of specialists, as well as plenty of entertainment available for everyone. I'm glad I chose this university.

I would like to say a few words about the beautiful city in which at the moment I live. Mogilev, like other cities, has its own history. I learned that it was founded in 1267. There are many interesting architectural monuments, theaters, museums, etc. There are monuments dedicated to the bloody World War II. On Independence Square there is town hall. Mogilev has its own individuality, as well as other cities of Belarus. Having lived not so much in this country, I liked it very much. Of course, I remain the first place in my heart to Turkmenistan, but I never regret that I came to study in Belarus. And I will always remember with a smile my student years in Mogilev.
