<p style="text-align: center;">Summary of the academic discipline:</p> <p>The content of the academic discipline “Pedagogical Diagnostics” is aimed at creating conditions for the formation of students’ readiness for diagnostic activities at the first stage of general secondary education. The teacher must not only know the age peculiarities, but also be able to correctly assess the individual capabilities of children. A modern teacher must be well versed in the methods of studying the personality of a student, students’ group, and his own activities.</p>
