<p>Summary of the content of the academic discipline:</p> <p>The academic discipline is oriented towards the fact that the new content of education and upbringing requires such teaching methods and techniques that would promote the development of activity, independence, creative initiative, interest in the subject being studied, as well as fit students with practical skills and abilities. It is important to help students not only in understanding their role in the educational process, but also in developing the ability to design their research papers in Belarusian lessons correctly.</p>
