<p style="text-align: center;"><b>Summary of the content of the academic discipline:</b></p> <p>The content of the discipline reflects the specifics of Russian finals and entrance examinations in educational institutions of the Republic of Belarus and the peculiarities of preparation for these tests. The academic discipline is designed for qualitative mastery of the methods of preparation for various types of knowledge control – dictation, presentation, essay, testing. Each of these varieties requires the development of one or more of the types of perception and memory, respectively, teaching methods based on the necessary types of perception are proposed. An important goal of teaching an academic discipline is to form the understanding of the consistency and interconnectedness of all tiers of language, as well as the balanced, harmonious development of all types of perception and memory of students.</p>
