

**The name of the academic discipline:
«Basics of general geography»**

Code and name of specialty	1-02 04 01 Biology and Chemistry
Training course	1
Semester of training	1
Number of class hours:	50
Lectures	20
Seminar classes	-
Practical classes	30
Laboratory classes	-
Form of current assessment (credit/differential credit/exam)	exam
Number of credits	3
Competencies to be formed	Mastering the discipline "Fundamentals of General Geography" should ensure the formation of specialized competencies: to explain the main natural phenomena occurring in the spheres of the geographic shell, the relationship between the components of the geographic shell and the processes occurring in it, and their impact on living organisms.

Summary of the academic discipline:

The academic discipline "Fundamentals of General Geography" is the basis of geographical knowledge, its foundation in the system of geographical sciences. The main goal is to study the geographical envelope, its structure and spatial differentiation, the main geographical patterns. Knowledge of the laws of latitudinal zonality, the circulation of matter and energy, the rhythm of development are considered for all spheres of the geographical envelope, taking into account environmental conditions.
