

**Academic discipline:
" Vertebrate Zoology"**

Code and name of specialty	1- 02 04 01 Biology and Chemistry
Training course	1
Semester of training	2
Number of class hours:	74
Lectures	30
Seminar classes	-
Practical classes	-
Laboratory classes	44
Form of current assessment (credit/differential credit/exam)	Exam
Number of credits	4
Competencies to be formed	To possess a system of knowledge about macro- and microstructure, physiology, systematics, the importance of living organisms in natural ecosystems and human life for the formation of scientific ideas about the structure of life and diversity
Summary of the content of the academic discipline:	
The academic discipline "Vertebrate Zoology" is the basis for the study of such disciplines as "Human Anatomy", "Human Physiology", "Ecology", "Evolutionary Biology". It forms an idea of the diversity of animal organisms as a result of adaptation to the environment. Develops biological thinking in the field of zoological knowledge
