Laboratory classes	20
Form of current assessment (credit/differential credit/exam)	exam
Number of credits	3
Competencies to be formed	To work in a staff, to perceive social, ethnic, confessional, cultural and other differences with tolerance; to carry out effective interaction with participants of the educational process on the basis of the norms of pedagogical ethics.
Brief content of the academic discipline:	
<p>The structure of the academic discipline «Social psychology» has a systematic character and is represented by the following sections: «Introduction to social psychology», «Social psychology of personality», «Interpersonal communication and interpersonal relationships», «Group psychology», «Social behavior».</p> <p>The first section allows to get acquainted with the subject, purpose, objectives and methods of social psychology, the main stages of its development as a science. The second section includes consideration of the problem of personality in the social world; the relationship of behavior with motivation and social attitudes of the individual. The third section is devoted to the consideration of various aspects of interpersonal communication and interpersonal relations; familiarization with the concept of conflict, its structure, dynamics and strategies of personal behavior in a conflict situation. The fourth section examines the socio-psychological features of a social group, group phenomena and processes, as well as the regularities of individual behavior in a group. Significant attention is paid to the study of the psychological characteristics of human behavior in a crowd, the consideration of the psychological mechanisms of the impact of a spontaneous group on an individual. The fifth section allows you to get acquainted with various types of human social behavior.</p>
