<b>Number of credits</b>	2
<b>Competencies to be formed</b>	To apply pedagogical knowledge to solve the tasks of professional activity, use technologies of pedagogical influence on the personality of the student in accordance with age, individual characteristics and pedagogical situation.

**Summary of the content of the academic discipline:**

The discipline is aimed at obtaining the knowledge and skills necessary for the organization and conduct of educational, methodical, training and physical culture and recreation work with children of primary school age. The content of the discipline forms the foundations of pedagogical knowledge on planning, organizing, designing the educational process, instills the ability to communicate, develops pedagogical thinking. A certain advantage of the subject is the ability to design moments of creative activity of a sports teacher. The ability to be creative, solve problems in nonstandard situations, flexibility of thinking and behavior is an important requirement for a modern specialist, which is largely laid down within the framework of the course being studied.
