Brief content of the academic discipline:

The subject matter of «**Foreign language**» includes the study of the spheres of social and everyday communication, sociocultural communication, educational and cognitive sphere, as well as professional sphere.

The study of grammatical material is based on a communicative and structural-functional approach, paying attention to speech structures used in a particular sphere of communication. The study of pronunciation is carried out within an acoustic approach; the focus is on improving auditory-pronunciation skills based on imitation exercises and especially in the context of communication situations.
