<b>Brief content of the academic discipline:</b>	
<p>“Social security right” is a humanitarian-legal module discipline, which includes the following topics: Concept, subject, method and system, principles of social security right; Social security right sources. Legal relations under the social security right; Labor (insurance) experience; retirement pension; Occupational and superannuation pensions; Disability pensions; survivor's pensions; Pension and other material support for certain categories of citizens. Social pensions; Applying for a pension, its calculation, appointment and recalculation. Resolution of disputes on pension issues; Benefits; Social security benefits; State targeted social assistance. Other social assistance types; International legal social security regulation.</p> <p>The study of social security right allows you to train future specialists, regardless of the specialization received, which require theoretical knowledge and practical skills necessary for the subsequent independent in-depth assimilation of legislation in the social security field and its correct application in practice.</p>
