

**Academic discipline:
"Legal regime of natural resources"**

Code and name of specialty	1-24 01 02 Jurisprudence
Training course	3
Semester of training	5
Number of class hours:	40
Lectures	22
Seminar classes	18
Practical exercises	-
Laboratory classes	-
Form of intermediate assessment (credit/differential credit/exam)	credit
Number of credits	3
Competencies to be formed	To apply the norms of normative legal acts in the field of the use and protection of natural resources in practical (law enforcement), research and educational activities in order to ensure sustainable environmental management

Summary of the content of the academic discipline:

“Legal regime of natural resources” is an academic discipline, the subject of which is a system of scientific knowledge about the branches of law governing public relations on the rational (sustainable) use of components and objects of the natural environment (land, mountain, water, forest, relations on the use of flora, fauna). The main purpose of studying the discipline is to give students the necessary amount of knowledge about the legal regulation of public relations related to the use of components and objects of the natural environment, to promote the development of independent legal thinking, a broad outlook and professional erudition of future lawyers.
