<p style="text-align: center;">Summary of the academic discipline:</p> <p>The needs of judicial practice and the lack of opportunity in the general course of economic procedure to give students deep knowledge of applied topics of procedural features of consideration and resolution of various cases in economic proceedings led to the introduction of the discipline “Features of consideration of economic cases in courts” into the educational process.</p> <p>Legal proceedings on any category of economic cases are conducted according to the general rules provided for by economic procedural legislation. Within the framework of the discipline, the most important and relevant at the present stage controversial and having practical significance issues of application of the norms of economic-procedural and substantive law (civil, public, etc.) in a number of cases under the jurisdiction of the economic court are considered.</p> <p>The purpose of studying the discipline is to acquire specific knowledge and skills in the correct application of legislation when considering and resolving economic cases in court, which should allow highly qualified and competent work of a judge of the economic court, legal adviser, representative (advocate), prosecutor.</p>
