Competencies to be formed	To communicate in a foreign language to solve the problems of interpersonal and intercultural interaction. To work in a team, to perceive social, ethnic, religious, cultural and other differences with tolerance. To use a foreign language as a tool of professional activity, to apply basic methods and techniques of various types of oral and written communication in a foreign language to solve professional problems.

Summary of the content of the academic discipline:

The academic discipline is included in the state component of the educational process of the linguistic module and provides the formation of a multicultural multilingual personality capable of using a foreign language in significant situations of professional and general cultural activities, to carry out interpersonal and intercultural communication. The educational material is practice-oriented and focused on the development of communicative competence through the study of two sections – socio-cultural communication and professional communication.
