

**Academic discipline:
« General anatomy»**

Code and name of specialty	1-80 02 01 Biomedical Science
Training course	1
Semester of training	1
Number of classhours:	76
Lectures	30
Seminar classes	-
Practical classes	-
Laboratory classes	46
Form of current assessment (credit/differential credit/exam)	exam
Number of credits	4
Competencies to be formed	Learning the discipline «General anatomy» should provide the formation of basic professional competences: to know the features of the structure of the human body and its physiological processes, to be able to assess the physiological conditions and pathological processes in the human body to solve professional problems.
Brief content of the academic discipline:	
The discipline «General anatomy» is the basis for the study of such disciplines as «General physiology», «Pathological anatomy», «Pathological physiology». It forms a system of knowledge about the structure and functions of organs, organ systems and the human body as a whole in the light of modern scientific achievements.
